

**FACTSHEET ON MAIN REQUIREMENTS
ON PASSENGER DATA PROVISION FOR AIR CARRIERS
OPERATING FLIGHTS TO AND FROM LITHUANIA**

Passenger data should be provided twice:

- 1) 48 hours before the flight;
- 2) immediately after the passenger boarding gates are closed.

Passenger data (API / PNR) collected by the air carriers in the normal course of their business should be provided to the authorised Lithuanian Passenger Information Unit regardless whether it is contained in reservation systems, departure control systems used to check passengers onto flights, or equivalent systems providing the same functionalities.

Applicable for:

- Intra-EU and Extra-EU flights;
- flights to and from the territory of Lithuania;
- all air carriers (*definition established in PNR Directive (EU) 2016/681 of the European Parliament and of the Council of 27 April 2016 on the use of passenger name record (PNR) data for the prevention, detection, investigation and prosecution of terrorist offences and serious crime*).

Passenger data provision formats:

- **48 hours before the flight:** *PNRGOV EDIFACT or XML;*
- **immediately after the passenger boarding gates are closed:** *PNRGOV EDIFACT or XML or, if needed, EDIFACT PAXLST.*

Possible solution for the “small air carriers” (charter / general aviation):

Manual passenger data input to www.pnr.lt webpage.

Official notification to the Lithuanian Passenger Information Unit (Annexes to the Description):

- date of the commencement of the provision of passenger data;
- two appointed representatives for contacts: 1) IT matters (technical Information System operation available 24/7); 2) organizational and legal matters;
- Passenger data that air carrier is collecting in the normal course of business and will be provided.
